Approval and Promulgation of State Implementation Plans: Alaska and Washington

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve the 1 year attainment date extension for three nonattainment areas: Mendenhall Valley, Alaska; Spokane, Washington; and Wallula, Washington, for particulate matter with an aerodynamic diameter of less than or equal to ten micrometers (PM-10). In the Final Rules Section of this **Federal Register**, the EPA is approving the States' extensions as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If the EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document.

DATES: Comments on this proposed rule must be received in writing by October 12, 1995.
